Computers, TVs, anything with a plug, fee applies to certain items,
see full list at www.indiecycle.com, no appointment needed

Eco-Depots are free collections for properly disposing of household hazardous waste from RI households.

Household hazardous waste is anything labeled with a skull and crossbones, or words like 'toxic', 'poison', 'flammable', 'combustible', etc. Examples include mercury devices, automotive fluids, fertilizers, pesticides, pool chemicals, and polishes.

Appointments are made to prevent everyone from showing up at once, which reduces the wait time in line. For more information, and to make an appointment, please visit: www.ecodepotri.com. Appointments are only necessary if disposing Household Hazardous Waste.

Appointments are NOT necessary for dropping off ONLY shredding, e-waste, or textiles.
